

## New Skool Checklist

3D-Puny Products

Originally created by Tappin in 1945, Mucky Packages were another used type of the popular household products of the time. This list series of parody stickers has shown the best of them and resulted in more than 30 sets over the following decades. An amazing number of collaborative artists and beautiful bright drawings art and listing sales in Mucky Packages among the best a combined place in pop-culture history. This product is not authorized or endorsed by any of the companies who are the subject of parody.

The products being spoofed are all good ones. No kidding.
